Good Morning, Gary!

I hope all is well. I was curious if there were any updates to the cleanup area? In your opinion, is there a way to further the story today?

Thanks so much.

Lauren

Lauren:

It was nice talking with you as well. In my opinion, this is a dangerous site that needs to be cleaned up immediately. The residents around this facility should not have to continue to deal with the risk of continued releases from this facility. I am saddened that this facility has been abandoned since 2010 and there are still significant quantities of wastes of this nature right in the middle of a residential setting.

Good Evening, Gary.

Thanks so much for taking to time to explain how the EPA is assisting with the cleanup. I think that information will help a lot of concerned residents in the area.

Here is my contact information should any new developments occur or you need to get in touch with me. Email, ltalarico@khou.com Cell: 281-804-7576.

The story will air this evening at 6:00.

Thanks again!
